

## BAF COVID 19-PET SUPPORT

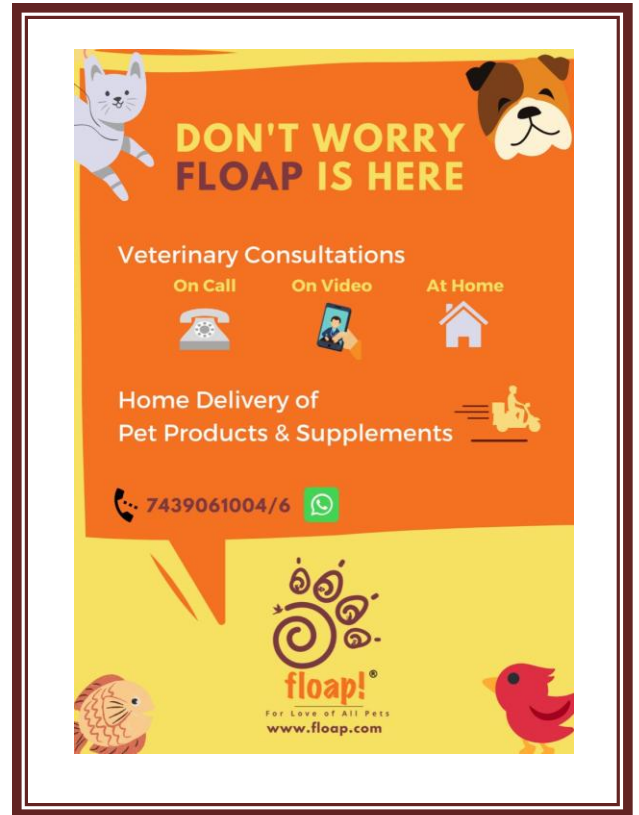

Floap, a Bengaluru-based pet care startup has launched "On-line, On-call medical consultation and Home vet-visits" for pets along with delivery of pet products.

"Animal healthcare is undoubtedly an essential service and it is important to make sure that pets are also safe and healthy during the lockdown. We have seen a lot of pet parents concerned about their pets - particularly about their food, walks, exercise, vaccinations, health and their wellbeing in general." says, the team at Floap.

Soon, Floap also plans to start online consultation with Nutritionists, behaviourists, trainers, groomers and other pet care providers to ensure the needs of all pets are met.
